## Statement of intent

Thornleigh Salesian College is an 11-18 secondary school, serving the north of Bolton. It is a truly comprehensive provision that serves different diverse communities across the town, from very different socio-economic backgrounds.

Vision: Despite students at Thornleigh coming from very different backgrounds and contexts, we are committed to all students having the same high quality education. We want our students all to have the independence and drive to overcome any potential obstacles on their learning journey. We do not want socio-economic barriers to inhibit in any way the progress of our disadvantaged students as part of our Salesian mission. Thornleigh places Don Bosco's desire for inclusion at the heart of our ethos and sees inspirational, creative teaching as the best way to achieve this goal. The Care Guidance and Support team provides the platform for this effective teaching, in creating a safe learning environment where all our students are cared for allowing them to flourish. We do not want any of our students left behind socially, or academically because of disadvantage. We want to encourage high expectations, raise career aspirations and remove barriers to learning so our students can realise their ambitions. The pupil premium plan aims to remove the main barriers disadvantaged students face tracking their progress through subjects and their extra-curricular participation. Where disadvantaged students face external barriers, careful planning, targeted support and intervention will protect their wellbeing and mental health, enabling them to achieve academic success leading them to a life of dignity.

Objectives \*Narrow the attainment and attendance gaps between disadvantaged pupils and non-disadvantaged students within school and nationally. \*Remove barriers to learning created by poverty, family, and financial circumstances. \*Ensure all students can read fluently and with good understanding to enable them to access the breadth of the curriculum. \*Develop confidence in their ability to communicate effectively in a wide range of contexts.

\*Access a wide range of opportunities, during and post-16, to develop their knowledge and understanding of the world, moving into a range of careers. \*Enable students to be independent and have the tools to look after their own mental health and wellbeing.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p><b>Improve attendance for disadvantaged groups.</b> Attendance rate for DP pupils (<i>as an overall cohort</i>) is below the target for all pupils of 95%. This reduces their College hours and is a factor contributing to some of them making less than expected progress.</p>
2	<p><b>Use assessment and data effectively to fine tune teaching and learning (<i>forensic analysis of groups</i>) to improve progress and remove barriers for disadvantaged groups.</b> <a href="#">Research has found that disadvantaged pupils have been worst affected by partial school closures, and that the attainment gap has grown as a result of national lockdowns.</a></p>
3	<p><b>Develop reading as a curriculum priority to enable disadvantaged students access a full curriculum offer.</b> Upon entry a large proportion of pupil premium pupils' reading ages are much lower than non-disadvantaged pupils, hindering access to the curriculum, their progress/attainment and life chances after leaving education (see <i>reading/literacy strategy</i>).</p>
4	<p><b>Ensure that all leaders (including middle leaders) are forensically focused on closing the gap for disadvantaged pupils.</b></p>
5	<p><b>Increase pupils' confidence, resilience and knowledge so that they can keep themselves healthy, physically and mentally.</b> <a href="#">During the pandemic, some disadvantaged young people and children, such as children in care or those who are disadvantaged financially, have reported poorer mental health and wellbeing including anxiety and loneliness.</a></p>

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
<p>To bring attendance and PA percentage in line with the national average.</p>	<ul style="list-style-type: none"> <li>● First day's response is effective.</li> <li>● Form tutors proactively implement the Thornleigh's attendance policy , prioritising DP.</li> <li>● DP parents/carers engage with pastoral teams.</li> <li>● DP are aware and are able to self-regulate attendance.</li> <li>● Teachers/pastoral teams do not have to follow absenteeism as DP attend regularly.</li> </ul>
<p>Data is used to provide targeted support for pupils. Ensuring all pupils make progress at least in line with their peers nationally.</p> <p>Data is analysed on a regular basis and discussed.</p> <p>Quality Assurance is timely and consistent - work sampling, lesson visits and subject reviews evidence responsive teaching through QFT.</p>	<ul style="list-style-type: none"> <li>● DHT for Q of E overseeing attainment and progress of DP.</li> <li>● Focused support and intervention programme for Yr11, English and Maths.</li> <li>● Curriculum leaders are aware of the skills and talents of their team to enable good practice to be shared, and students who are showing signs of being at risk are identified quickly. Question level analysis is used effectively to focus intervention effectively.</li> <li>● Areas of development are identified focused upon DP progress and outcomes. Book looks, marking, teacher circulating, targeted questioning will all be focused upon DP as a priority.</li> </ul> <p>Pupil Progress software will be utilised to analyse granular detail of DP gaps and inform students and families what they need to strengthen.</p>

This plan is reviewed systematically. Leadership of this strategy has been handed over to the Deputy Head Teacher and is a top priority. Disadvantaged students are also embedded within the school development plan.

An outward facing approach has been adopted in Term 1 2024. A visit is scheduled in Nov 2024 to an outstanding school with a high DP intake in order to share good practice.
